

Our 64-credit Associate of Science degree is a three-semester step-in program with a spring start for current Licensed Practical Nurses (LPNs) who wish to become registered nurses (RNs). Graduates are eligible to apply for licensure as a Registered Nurse (RN).

The hybrid delivery model consists of online courses and in-person meetings. Course work online is asynchronous, it can be completed any time of day or night- whenever your schedule allows. Labs and clinicals take place on campus and in-person at either NTC or one of our local clinical sites. Students can plan to be in-person for approximately 4 consecutive days once per month for the duration of the program.

*Our programs are accredited by the Accreditation Commission for Education in Nursing (ACEN). All Nursing programs have separate applications and admission criteria/ prerequisites; acceptance to NTC is not an acceptance to the LPN Step-In program. You must be accepted into the Step-In program to enroll in ADNG courses.*

		<b>CREDIT HOURS</b>
<b>SEMESTER 1 - SPRING</b>	ADNG 1150 Nursing I	<b>4</b>
	ADNG 1300 Transition to Professional Nursing - 2 Credit Lecture & 2 Credit Lab	<b>4</b>
