

Our 64-credit Associate of Science degree is a two-year program with a fall start for students with no previous nursing experience. Graduates are eligible to apply for their licensure as a Registered Nurse (RN).

The hybrid delivery model consists of online courses and in-person meetings. Course work online is asynchronous. It can be completed any time of day or night- whenever your schedule allows. Labs and clinicals take place on campus and in person at either NTC or one of our local clinical sites. Students can plan to be in person for approximately 4 consecutive days per month for the duration of the program.

Our programs are accredited by the Accreditation Commission for Education in Nursing (ACEN). All Nursing programs have separate applications and admission criteria/ prerequisites; acceptance to NTC is not an acceptance to the Traditional RN program. You must be accepted into the Traditional RN program to enroll in ADNG courses.

SEMESTER 1 - FALL	BIOL 2221 Microbiology OR BIOL 2262 Anatomy & Physiology II	3/4
	MATH 1110 College Algebra OR MATH 1930 Intro to Math Sciences	3
	ADNG 1000 Foundations of Nursing (Lecture)	2
	ADNG 1050 Foundation - Nursing Skills (Lab)	4
	HLTH 1410 First Aid/ CPR*	

CREDITS 12 / 13

SEMESTER 2 - SPRING	PSYCH 2201 Developmental Psychology	3
	CHEM 1100 Intro to Chemistry	4
	HLTH 1100 Pharmacology	2
	ADNG 1150 Nursing I	4
	ADNG 1200 Clinical I (Lab)	2

CREDITS 15

SEMESTER 3 - FALL	General Education Course/ Elective	3
	ADNG 2100 Clinical II (Lab)	4
	ADNG 2150 Nursing II	4
	ADNG 2400 Psychosocial Nursing	2

CREDITS 13

SEMESTER 4 - SPRING	PHIL 1201 Ethics OR PHIL 2210 Bioethical Issues	3
	ADNG 2050 Advanced Skills - 1 Credit Lecture & 1 Credit Lab	2
